

# GET A JUMP START ON YOUR FUTURE

## THIS SUMMER AT MANOR COLLEGE!

*Become a Blue Jay Scholar in College 101 and take college online courses while still in high school.*

### WHAT IS COLLEGE 101?

A program designed to give current high school students ages 16+ the opportunity to become Blue Jay Scholars. Blue Jay Scholars will have the opportunity to experience college courses facilitated by college faculty during the Summer months. **With courses at the low cost of only \$100 per credit**, take courses such as Introduction to Business, Human Nutrition Science, Macroeconomics and Chemistry to begin your college career for less while still in high school.

These advantages will empower you with academic skills and knowledge, and the course credits you'll earn will help you to make a smooth transition into your college career. College 101 provides a college perspective and preparation unmatched elsewhere in your high school years.

“

“I took a College 101 class last Summer because I know that time is money and I want to use my time as efficiently as possible. Being able to take a college class for such a great price was a no-brainer, all high school students should do it!”

– Madalyn, 2020 Blue Jay Scholar

**\$100** PER CREDIT!
